What is Affirm?

Affirm is a nonprofit organization that believes in a future where everyone has the trust, support, and information they need to choose what’s best for them.

**Our Purpose**
We believe in a future where everyone has the trust, support, and information they need to choose what’s best for them.

**Our Mission**
To make sexual and reproductive healthcare accessible to everyone.

What happened to Arizona Family Health Partnership?
It was time for a new look and feel that better encapsulated our work. We also wanted a catchy and easy to remember name. No more AFHP? AZFH? AZFHP? … just Affirm.

Why the name Affirm?
To "affirm" means to uphold something and assert it strongly. It also means to offer emotional support and encouragement. Those two concepts are core to our vision of the future, where everyone has the trust, support, and information they need to choose what's best for them.

We chose the name "Affirm" because it speaks to that vision and how we execute on it. We affirm the right of every Arizonan to access sexual and reproductive healthcare, without reservations. And we affirm their dignity as we do it, breaking down barriers and busting stigmas so that everyone can pursue their future with confidence, clarity, and support.

Has your scope of work changed?
No, some wording and how we represent ourselves (our name, logo, colors, vibe) has changed. We still focus on sexual and reproductive health for all.

What does Affirm do?
With Title X funding, Affirm coordinates sexual and reproductive healthcare services, connects clients to caring providers, and offers inclusive health education. With additional donor support, Affirm advocates for evidence-based health policy at every level of government.
**What is Title X?**
Title X (spoken as Title ten) is a grant program administered by the federal government. This program funds Affirm, who in turn, distributes the funds to health centers that provide sexual and reproductive healthcare and other preventative services. Title X is what helps Affirm and our partners provide sexual and reproductive healthcare to over 30,000 people every year!

**Who does Affirm serve?**
We serve people in Arizona - especially youth, the underinsured and uninsured, people who earn low wages, Indigenous communities, and other groups who have been systematically excluded from receiving care.

**Why is our work so important?**
Sexual and reproductive healthcare is rapidly becoming harder to access. In some places, it's almost impossible. Stigma, misinformation, and shame run rampant in our communities. This isn't by accident. It's the result of ineffective sex education, restrictive policies, and a system-wide shortage of resources. At Affirm, we know sexual and reproductive care is not only vital to our overall health, but it's something to be proud of, just as valuable as any other kind of care.

**What sets Affirm apart?**
Affirming the dignity of the people we serve is crucial to our approach. At Affirm, we believe people know what's best for them. Our job is to support them as they access the care they need. We break down barriers, provide crucial education, and bust stigmas so that everyone can make decisions with confidence and clarity.
